OBJECTIVE

As a MERN stack developer with a strong background in data structures and algorithms, I am excited to bring my skills and passion for web development to an internship opportunity. With experience in building full-stack web applications using technologies such as MongoDB, Express.js, React, and Node.js, I am confident in my ability to quickly learn new tools and technologies as needed. My solid understanding of DSA also allows me to create efficient and scalable solutions to complex problems. I am eager to continue honing my skills and expanding my experience in a team-oriented work environment.

EDUCATION

B.Tech in Computer Science, University of Engineering and Management (UEM) Expected 2024
Current CGPA: 8.9

High School, Modella Caretaker Centre And School 2018 - 2020
